

## Tasered and Maced

Flaming Lips

Well it's a funny thing when your friends are chasing you  
Like you hit one of them in the balls and stuff like that  
Most times they'll stop chasing you after a while when they can  
't catch you  
But cops don't do that  
And, and, and I found out the hard way  
But, but they proceeded to tell an old lady to go back inside  
And right when they were fixing to go through the door  
They fold the door down and slam me on the ground  
Slam me, slam me  
Needless to say the crowd went crazy  
And so did the cops, they were in a frenzy  
They came in and started macing everybody  
About that time, macing  
Bombing, macing, whatever you need to bug  
...you the bugs all night, your house  
So he comes through the conference room  
With coffee on the back  
Without even thinking  
And my primal rage stage  
I was inebriated with alcohol  
That was it, that was it  
And young, young vitality, vitality  
And I don't even think, and I grab the cop from behind  
And he, and he was like what are you doing man?  
And he started to mace me right in my face  
Not even in the foot, away from my face  
So I stop thinking, I just take off running  
I was actually high-stepping, it was like  
My buddy said he saw me, and I was like he saw some  
Long legged creature just like  
He took a base high stepping  
Going down sixth street, stop tinkling  
So I stopped and turned around  
Well it's a funny thing when your friends are chasing you  
Like you hit one of them in the balls and stuff like that  
Most times they'll stop chasing you after a while when they can  
't catch you  
But cops don't do that, and, and, and I found out the hard way  
Because they caught me, because they caught me  
Fantastic but I can't catch them  
Needless to say I turned around  
And proceeded to take me to the ground  
And taser me, taser me, taser me  
Tasered and maced pretty good
