

You Don't Respond

Flaming Lips

You don't respond
You don't respond
I give you cleans
But you don't respond

Psychic minds
But you don't respond
I give you life
But you don't respond

You say there's a difference
Was high
You say there's a difference
Was low

You don't respond
You don't respond
You hear me cry
But you don't respond

Galactic clouds
Fall in her presence
Psychic minds
Know when you are lying

But you don't respond
You don't respond
You don't respond
You don't respond...

Galactic clouds
Fall in her presence
Psychic minds
Know when you are lying
