[Verse: Meech]

I'm so high from last night woke up on the ceiling yo  
Bucket low like fuck it though, nigga feel like Gilligone  
Fuck being better than you, I'm tryna be better than me  
It's just me myself and I, I'm just tryna be better than we  
Roll that weed, no stress we need  
Smoking 'til we catch a seizure, Rick Ross indeed  
The XO got me staggerin' like I ain't got no balance and  
My bitch head great and yours mentally challenged  
Three bitches and me, hah, now that's some foreplay  
Sex sweet sticky sheets pussy tastes like shortcake  
Grandaddy OG kush and Old English  
Can't tell me that my soul ain't old nigga  
My money bloody so she call me Count Rackula  
Endzone dance in the pussy then I tackle her  
No I never shackle her take the condom wrap her up  
My dick is a gift so I wrap it up  
Beat the kitty nine times now all her life gone  
This is my retarded flow call it 50 Tyson  
Puttin' this dick in this pussy constrict like a python  
This weed is quite strong I stuff it and ignite bomb  
Inhale exhale take a whiff I bet you smell me  
Pissy off the chrissy I'm pissin' on bitties like R. Kelly  
I'm young black and gaudy, young black and horny  
She young black stacked, ass fat, face gorgeous  
Never ask for shit and her ego is enormous  
Remember she's a bitch so of course a nigga dog her  
Safari print lenses, I murdered the beat  
Dissect it and do forensics and leave without a blemish  
Smokin' on headband, overviewin' the earth  
Life is a fifty fifty you know gift and the curse  
How deep is too deep cause I done seen the bottom  
Feels like the earth is in my reach because that's how high I've  
e gotten  
I dispose of you foes and these shows through the flows  
Pop a tab and crush the globe as my third eye glows  
It's hard to believe that there is barely a heart in me  
Stepped in my mistake cause it only made a smarter me  
Even blood know, cause flow like an artery  
Even 'cause know, blood flow like an artery
