

[Hook: Kilo Kish]

The night sneaks up but today won't you play with me  
And when the lights grow dark all that's left is your energy

[Verse 1: Juice]

I'd say I'm really high now  
On the rise now, better calm down  
Visions of naked women  
Ooh when I get that feeling  
Twistin' that real good  
Bomb kush, face numb, titties, life's good  
Ah, ah, as tempting as some chocolate  
Delectable you are, every bit of you: I like it  
Brown skin, Pamela, dark skin, Vivica  
Long hair, moonlight, mollies and excedr-a  
Ah, ah, I can flow  
All I need is some weed, give me mo'  
Never gonna swear I don't love no ho  
If she look at me, I'm a take yo ho, ho  
Take her to the crib, let it snow, snow  
Line up her line then she blow, blow  
She's a fiend for the green  
Fuck my team for my mean green scheme  
Left my balls on her chin, now she gone with the wind  
Next week, call up her friend  
Python striking again  
Everything's a go, rolls full of dough  
Case full of rolls, sour diesel on my flow  
Zombies, straight fuckin' it up my bitches  
As you fuckin up what you be lovin it up  
I be fuckin up guts, straight knuck and buck

[Hook:]

The night sneaks up but today won't you play with me  
And when the lights grow dark all that's left is your energy  
Surrounded by the threat of regret trapped in leopard sheets  
It was the price to pay

[Verse 2: Meech]

I know you heard of cloud nine  
Well let's add sixty to it  
Million miles in the sky  
Baby girl you leakin' fluid  
And slowly her legs divide  
As she work her way into it  
Simple math, weed and hash  
Thirteen tabs, got my leopard-print 'back  
Ever make love in a casket?  
Spit in her mouth cause she like it nasty  
I go deep, you tug my sheets  
Then you get to screaming and scratching  
I be a fool, to put my pride aside  
For superficial women  
You brought you a swimming pool?  
Guess what girl, I'm skinny dipping  
Missionary, doggie, ruff ruff  
Raw please, sushi

Cameras flash, throw it back  
Girl let's make a movie  
Bitch from L.A., but she love Brooklyn niggas  
Said she got Plan B  
So I cums in the middle  
Her best friend is a freak, she try to hide it  
A little G, throw up the peace sign with a tongue  
In the middle, if she tall then I lick her down  
If she thick then I pick her up  
Fucked her on the first night, she call it beginner's luck
