## Flatbush ZOMBIES

What the blood clot, what the blood  
Yeah method, drop 3 dwaine card  
The way that splash your busters craff  
And it hand a brig bopper, little dash and nasty nas  
Top it off with bob marley, throw em all in the blender  
And I'm what the f\*\*k you getting  
Imagine that like the i'm a walking talking, something you never figure

I am like randy savage on acid, that's very vibrant and classic  
A walking disaster, hazard to any rapper that's rapping  
We the underground killers but globally they feel us  
Cause we reached toting the feeling, this guru spit voodoo yes  
I am that mass appealing, I'm feelin upon her breast  
She swallowing on my cherin, argh  
Rack in my mouth, teeth made of gold  
I'm sucking the areolas, my nigga the best of ball  
Double on tangerine, if they auctioning niggas, then I'm the top product  
What am I saying, if you's an auction, I'm forefathers  
Where is my mind shit, I can't find it  
Like looking for remote control, I just smoke in marijuana  
How is it so nigga rich, yeah it's so enlighten  
It can't be possible, he living everything he rhyming  
I feel like we enter the game remarkable timing, timing, timing

I assemble sentences so I could rip the benefits  
And I never see my nemesis, but I'm workin on my penmanship  
My accountant many blessin, stressin women, nothing less of winnin  
If I'm talking shit, shit man I'm only kidding  
Sittin on this fear, or the spinnin persevere  
2012 is here it's still a different kind of fear  
It's material, and I ain't talking fashion  
Believe in what you want cause no one knows this scene would happe, yeah bas  
tards  
Since I smoked the kohiba I'm evil,  
Zombies be competition, 6 deep and eat your people  
Only a legal amounts of the medicine, will get into buying  
I already got your heart girl, I wanna f\*\*k your mind  
But since I came, develop my name, to alter all the slappy hard  
I never drop the acid bro, I'm trippy as f\*\*k  
Because I'd rather not get down instead of picking you up  
So cut the ash right to the diamond  
My head wrapped up as a shaman cause

Just a heart full of pride, a mouth full of gold  
Corny baby mama knocking down my front door  
She just want my income, I rather get my dick sucked  
I be that mp, shawty don't tip me, leather on, rally piss on women  
r. kelly, smashing bitches in the tellie, passing swishers throwed up with m

Having visions for mason bad to coming back  
Speaking crap, contemplating how we living under satan  
Discriminating and hating, this ain't rap

Gotta stay head of the surfer, the head of  
Love my medical, hating niggas disguise as friends, I see the lies  
Wannabes, little g's, keep the apc, I'm a god  
Rep that nyc, we got in your ty  
It's time y'all get off my nutz, please,  
I got that scoop, ain't that about a bitch  
Take a flick with the microphone, rip a gray dick a hairy black born nigga  
Sicker than your average, twisting dank, f\*\*king hoes on the kitchen sink  
That you think, what you think, what you think?
