

## Buddy's Song

Fleetwood Mac

Blue blue days, and long black nights  
Lonesome tears you're gonna cry for me  
And little baby  
You'd better start baby  
And leave

Think it over before you leave  
I got the love - that kind you need  
And little baby  
You'd better start baby  
And leave

I'll rave on with the things you say  
You say you're gonna leave but that'll be the day  
Maybe baby, you don't know  
I left peggy sue, a long time ago

She's the girl on my mind  
Everyday through all the time  
And little baby  
You'd better start baby  
And leave

(solo)

I'll rave on with those things you say  
You say you're gonna leave but that'll be the day  
Maybe baby, you don't know  
I left peggy sue, a long time ago

She's the girl on my mind  
Everyday through all the time  
And little baby  
You'd better start baby  
And leave

And little baby  
You'd better start baby  
And leave
