

# I Got It In for You

Fleetwood Mac

Baby I've been your shadow  
I'm on your heels both night and day  
Baby I'm getting warmer  
I'm getting closer, inches away  
I've been watching every move you make  
And I've got feelings overdue

I got it in for you  
(I got it in for you)  
I got it in for you  
(I got it in for you)

I've been runnin' under cover  
In the darkness of the night  
So if you're looking over your shoulder  
You will see me out of sight  
Now I'm moving into your light  
I think it's high time you knew

(I got it in for you)  
I'm not gonna give up  
(I got it in for you)  
Don't want to do without  
(I got it in for you)  
I'll win you over  
(I got it in for you)  
Over and over  
I got it in for you  
(I got it in for you)  
I got it in for you  
(I got it in for you)

Baby don't you worry  
You won't be lonely anymore  
Baby I've been planning  
All the romance you're looking for  
And it's right outside your door  
And tonight I'm comin' through

I got it in for you  
(I got it in for you)  
I got it in for you  
(I got it in for you)
