

# I Held My Baby Last Night

Fleetwood Mac

Last Night  
I lost the best friend I ever had  
Last Night  
I lost the best friend I ever had  
You know she gone, she gone and left me  
That made me feel, feel so bad

Now it's early in the morning  
And my love is comin' down for you  
Early in the morning  
And my love is comin' down for you  
I want you to tell me, tell me, tell me baby, now  
What in the world are we gonna do

If she don't come back  
I don't know what I'm gonna just do  
If she don't never come back  
I don't know what in the world I'm gonna do  
'Cause she's gone and left me  
Left me to see the whole night through
