

# In the Back of My Mind

Fleetwood Mac

Well I try and I try  
You can't forget her  
Can't run, can't hide  
When you remember  
Nights that won't fade away  
Yea fade away  
Well I still go crazy  
When you hear her name  
Feels like you just left today  
And it drives you insane  
But you keep holding on  
Yea holding on  
In the back of my mind  
You live all the time  
In the back of my mind  
In the back of my mind  
Every night, every day  
That's where you still play  
In the back of my mind  
When I close my eyes  
You can still touch her  
And I fantasize  
She's still your lover  
When I wake up I see  
The only place you'll be  
I know where you'll be  
In the back of my mind  
You live all the time  
In the back of my mind  
In the back of my mind  
Every night, every day  
That's where you still play  
In the back of my mind  
I remember your eyes burning bright  
Like we touched the summer sun  
I can see your shadow standing there  
On the streets where we used to run  
Remember  
In the back of my mind  
You live all the time  
In the back of my mind  
In the back of my mind  
Every night, every day  
That's where you still play  
In the back of my mind  
In the back of my mind  
You live all the time  
In the back of my mind  
In the back of my mind
