

Jenny Lee

Fleetwood Mac

After school today, you smiled and looked my way I asked you out - the following night you said "gee,
It'll be alright" oh-oh, Jenny Lee

I took you to a dance, never thought I'd get the chance to hold you near - the way I do for you to say your love is true oh-oh, Jenny Lee

Every night I dreamed about you, I just can't live without you.

Needing you near - every day, uh-oh, don't go away.

If you do I'd cry, I would surely die
Nothing would be - the same for me 'cause your the only one for me, uh-oh, Jenny Lee
