

# One Together

Fleetwood Mac

How can my heart be filled with doubts of you  
When you can fill me with a love that's true  
But I can't help but sigh,  
And sometimes wonder why  
What can I do  
I want to see you more and more each day  
I really need you, you're my only way  
You say it's alright now  
But still I wonder how, what can I say

I've dreamed a thousand dreams  
And cried so many tears  
Cause when you're not in my heart it seems  
Like I've wasted all my years

Someday together we will fly to the sun  
And then we'll think of all the things we've done  
Everyone will smile, happy all the while  
Now that we're one

I've dreamed a thousand dreams  
And cried so many tears  
When you're not in my heart it seems  
Like I've wasted all my years

Someday together we will fly to the sun  
And then we'll think of all the things we've done  
Everyone will smile, happy all the while  
Now that we're one
