Hey woman, let me have a talk with you Hey girl, let me have a talk with you Now you've taken all my money What are you gonna do

A man's gotta give a woman Everything she needs A man's gotta give a woman Everything she needs Don't give that woman no more money If that good girl don't say please

A man's gotta give a woman Everything she needs A man's gotta give a woman Everything she needs Don't give that woman no more money If that good girl don't say please
