

The Second Time

Fleetwood Mac

Was it in my mind?
Or was it true?
That woman used to a Hollywood livin'
Do you remember how
The Angels sang?

And your sorrows left you there
Right before the lights came up
Do you remember
You took my hand?
Do you remember, my friend?

Can you feel like it was
The second time with you?
That feelin' of a vivid memory
Well had to do
With a dream come true

And someone that you loved
And would always love
Second time around, for us
She never looked back

Someone that you loved
And would always love
The second time around, for us
She never looked back
She could never look back
