

# This Is the Rock

Fleetwood Mac

This is the rock  
We've been talking about  
Yeah this is the rock  
Makes you jump and shout

This is the rock  
That knocks you right out

It makes you lose  
All your troubles and cares  
You'll lose your blues  
They ain't going nowhere

This is the rock  
That hits you right there

Well you can get back on the roof  
And shout it all around  
Get up on your seats about  
What I'm putting down  
Get em all a hoping to that crazy beat  
Get up all a boppin' and a tappin' their feet

Cause it's the rock  
Moves you all day long  
Yeah it's the rock  
Gettin' everyone  
This is the rock  
That really turns you on

Whooooooooo!

Well you can get back on the roof  
And shout it all around  
Get up on your seats about  
What I'm putting down  
Get em all a hoping to that crazy beat  
Get em all a boppin' and a tappin' their feet

Cause it's the rock  
Moves you all day long  
Yeah yeah it's the rock  
Ah gettin' everyone  
This is the rock  
That really turns you on

Yeah this is the rock  
That really turns you on

This is the rock  
That really turns you on

Whoa this is the rock...
