

# Into The Crypts Of Scattered Souls

Fleshcrawl

Into the crypts of scattered souls  
Known as the place where death unfolds  
Where my flesh will find a spot  
Into the crypts of hell I rot

[chorus]

I just seek your blood (blood)  
I just like your guts (guts)  
I just need your flesh (flesh)  
I just want your death (death)

[verse]

Into the crypts of scattered souls  
Known as the place where death unfolds  
Where my flesh will find a spot  
Into the crypts of hell I rot  
In a world where darkness reigns  
Known as the place where pain sustains  
Down the deadly crypts of hell  
Where the passion of hatred dwells

[repeat chorus]

Me, myself, and I  
Just want you to die  
Leave you ripped and torn  
Make your life unborn  
Legacy of hell  
Evil powers dwell  
Feast upon the dead  
Locked up in my head
