

## Written In Blood

Fleshcrawl

In silence, I listen to distant cries  
Echoes, resounding throughout the night  
Sick voices are milling into my head  
The suffering of corpses, straight from the dead  
Scared and shocked, staring into the black  
Gone so far, there's no turning back  
The eyes of perdition, rot in the mud  
The signs of deception, written in blood

Written in blood - my fate, sealed by your death  
Written in blood - your flesh, feeds my chest  
Written in blood - your skull embellishes my grave  
Written in blood

Blood for your blood, die for your death  
Grave for your flesh, forever more the soulskinner is  
back

Written in blood - my fate, sealed by your death  
Written in blood - your flesh, feeds my chest  
Written in blood - your skull embellishes my grave  
Written in blood
