

# The Egoism

## Fleshgod Apocalypse

Scream for the shame of your ego  
To dominate it  
Reflecting fear unsatisfied  
To kill  
Lost in the maze of a treason  
Intoxicated  
Destined to suffer from mental insanity

Dark is the dream of your demons  
Revealing will to subjugate  
They need to dominate the men  
Crubs will remain on their own table  
A solitary king

Forever craving hate  
Your Reich has come  
The masses are ablazed  
As you despise their own innocence!  
Victim  
Forever they degrade  
You need for more  
Your kingdom is in flames  
As you create their indifference!

They will fear your coming  
The selfish dogma  
There is no sharing in your life  
You feel lost in the haze of oblivion  
You're self addicted  
Destined to twist all the rules of humanity

Minds are deranged for your sentence  
Your domination is a perception of your deception  
There is no one to sacrifice that's your oppression  
Dust will remain on you  
A misanthropic king

Forever craving hate  
Your Reich has come  
The masses are ablazed  
As you despise their own innocence!  
Victim  
Forever they degrade  
You need for more  
Your kingdom is in flames  
As you create their indifference!

Si vitam inspicias hominum, si denique mores, cum  
culpant alios: quia nemo sine crimine vivit

Discriminate to enfeeble  
It's your intention  
The pandemonium in your head  
You set all of your goals for your reason  
To rise your banners  
Moved by the wind of a twisted obscenity

Thorned is the crown of your falseness  
It's scraping your skin  
As you will worship your own I  
Obey!  
Mud will be food for your hunger  
That brings you under  
A mandatory king

Forever craving hate  
Your Reich has come  
The masses are ablazed  
As you despise their own innocence!  
Victim  
Forever they degrade  
You need for more  
Your kingdom is in flames  
As you create their indifference!
