

Catholic Scars And Chocolate Bars

Flickerstick

The cigarettes and babies
The cops and the crazies
The faces come faster
When you're not around
The clowns and the daisies
All smile when they chase me
The faces don't matter
When you're not around

And your friends tear apart
All the hurt, all you are
And the time that you'll do
Won't let you get away from

Cops in cars and nightclub stars
Here we go again, here we go again
Catholic scars and chocolate bars
Here we go again, here we go again

The commercials, they tell me
Ignore what they sell me
The days just come faster
When you're not around
And the cigarettes and babies
The cancer is waiting
The days, just don't matter
When you're not around

And you fall on your face
Blame the wine, blame the chase
All the cash and the fame
Won't let you get away from

Cops in cars and nightclub stars
Here we go again, here we go again
Catholic scars and chocolate bars
Here we go again, here we go again

Cause you dislike your
Cops in cars and Broadway stars
Here we go again, here we go again
Catholic scars and chocolate bars
Here we go again, here we go again

And you dislike your
Cops in cars and nightclub stars
Here we go again, here we go again
Hey...
Catholic scars and chocolate bars
Here we go again, don't you feel the same?

Hey

And here we go again, here we go again
Oh, here we go
