Flickerstick

Hey I'm a man and I'm feeling so into you Hey I'm a man and I'm feeling so into you Don't you lie, they may follow I still can't see you smile Hey I'm a man and I'm feeling so into you Save yourself this emotion They want to see you drown Let it out, this emotion Your sin is coming out Said I'm into you Ohhh... So you lie right here Fear not, I know Take me for fear Don't lose control So don't you run I may follow I still can't see you smile Tell yourself Things they march on They want to see you drown Babe, don't run Baby, don't run 'Cause I've got a gun I've got a pistol in my hand I'm making my stand While you all look around I've got a pistol in my hand I'm making my stand While you all look around I've got a pistol in my hand I'm making my stand While you all look around I've got a pistol in my hand I'm making my stand While you all look around I've got a pistol in my hand I'm making my stand While you all look around I've got a pistol in my hand I'm making my stand While you all look around Tištěno z www.txp.cz
