

Stand Still

Flight Facilities

Poke me in the side, turn around and see your face
Didn't think that I'd see you in this place,
Next thing you know, we were good to go,
Slippin out the back door to get back home

Back into your arms like there's no lost time
Back in your mouth like a love crime

I'll miss, your kiss
Well I'll miss, your kiss

Said I love you and I always will
I wish you didn't stand still
Sometimes I cannot stand your fear,
If I didn't love you I wouldn't be here

Don't be a fool
And play it too cool
So cool that you can't see how much you mean to me

Too cool for school
He's, too cool for school

Turn off our phones, taking off of our clothes
Coz this is how we do it
Keep the tension tight, confirmation on the night
If we don't have it we can't lose it

Tears running, they keep coming
Tears running, they keep coming

Said I love you and I always will
I wish you didn't stand still
Sometimes I cannot stand your fear,
If I didn't love you I wouldn't be here

Don't be a fool
And play it too cool
So cool that you can't see how much you mean to me

Too cool for school
He's, too cool for school

Too cool for school
He's, too cool for school

Sunlight's comin up to surprise me, I couldn't get to sleep
The thoughts of you keep me awake, the thought of you go deep
Well, Sunlight's comin up to surprise me, I couldn't get to sleep
The thoughts of you keep me awake, the thought of you go deep

I love you and I always will
I wish you didn't stand still
Sometimes I cannot stand your fear,
If I didn't love you I wouldn't be here

Don't be a fool

And play it too cool
So cool that you can't see how much you mean to me

Too cool for school
He's, too cool for school

Too cool for school
He's, too cool for school
