Power

All the peace talks are over

We coming in taking it over

To get our power

(feel this)

Everything is off the table

We ready u willing and able?

Ever since we fell out of heaven, man, we been at each other

Stabbin' each other to blasting each other

We done lost the real love now we mad at each other

We keep on dropping them bombs, we won't have any brothers

Your definition of peace is give me all that i need

If u continue to struggle then you will no longer breathe

We blind to the evil like we can no longer see

Rewind it and u will find us repeating our history

Depriving us, victimizing us, your steady driving us to the edge

Put a bullet in your head

Inside of us, somethings igniting us, we must confide in us

Trust and you'll be lead to the knowledge of the dead

Runnin through the system, spotting them secret passages

Coldblooded killer that shot this boy i done asked him

Nightvision, the right vision to see through bullshit

New millenium preaching the roof is my bull pit

Out of the ashes the phoenix is rising, outta the darkness yea it keeps clim

Every man that is a man should guard his own community

This is nothing new to me, truth is spoken brutally

I believe in GOD so theres nothing u can do to me

Kick thier bare ass, bare facts like nudity

Do i got to hang u from a clock to see what time it is

When we gonna get tired of this, when we gonna just ride for this

All the children getting killed, all the grownups talking shit

Everybody in between chewin on the devil dick

Traded in them molitovs now they lightn' candle wicks

Called they self revolutionary where is the evidence

Revolutionary's died they was from a different time

And they gonna come back again but you ain't gonna be alive

Only thing that we can do is everything so DO IT

Get up off your ass cock back and pursue it

Imma hold it down here plant it on the ground here

Anybody threatening and they body gonna get found here
