

## Stick Together

## Floorpunch

We're all friends and we'll stick together  
These fucking ties we have can't be severed  
Watch our backs, we're standing strong  
With my friends I know I can't go wrong  
When I'm down you're always there  
If there's ever a problem you know I care  
I'm always here if you need me  
Friends for life, that's what we all agreed
