

How Big, How Blue, How Beautiful

Florence + the Machine

Between a crucifix and the Hollywood sign
We decided to get hurt
Now there's a few things we have to burn
Set our hearts ablaze, and every city was a gift
And every skyline was like a kiss upon the lips
And I was making you a wish
And every skyline

How big, how blue, how beautiful
How big, how blue, how beautiful
And meanwhile a man was falling from space
And every day I wore your face
Like an atmosphere around me
Set a life inside of me
And meanwhile a man was falling from space
As he hit the earth I left this place
Let the atmosphere surround me

Set a life inside of me
What are we gonna do?
We opened the door, now it's all coming through
Till we see it too
We opened our eyes and its changing the view
Oh, what are we gonna do?
We opened the door, now its all coming through

How big, how blue, how
How big, how blue, how...
And every city was a gift
And every skyline was like a kiss upon the lips
And I was making you a wish
And every skyline
And meanwhile a man was falling from space
And every day I wore your face
Like an atmosphere around me
Half the otherside of me

What are we gonna do?
We opened the door, now it's all coming through
Till we see it too
We opened our eyes and it's changing the view
Oh, what are we gonna do?
We opened the door, now it's all coming through

How big, how blue, how beautiful
How big, how blue, how beautiful
How big, how blue, how beautiful
How big, how blue, how...

So much time on the other side
Waiting for you to wake up
So much time on the other side
Waiting for you to wake up
Maybe I'll see you in another life
But this one wasn't enough
So much time on the other side

How big, how blue, how beautiful
How big, how blue, how...
