

# Sky Full of Song

Florence + the Machine

How deeply are you sleeping or are you still awake?  
A good friend told me you've been staying out so late  
Be careful, oh, my darling, oh, be careful what it takes  
From what I've seen so far, the good ones always seem to break  
And I was screaming at my father and you were screaming at me  
And I can feel your anger from way across the sea  
And I was kissing strangers, I was causing such a scene  
Oh, the heart it hides such unimaginable things

Grab me by my ankles, I've been flying for too long  
I couldn't hide from the thunder in a sky full of song  
And I want you so badly but you could be anyone  
I couldn't hide from the thunder in a sky full of song

Hold me down, I'm so tired now  
Aim your arrow at the sky  
Take me down, I'm too tired now  
Leave me where I lie

And I can tell that I'm in trouble when that music starts to play  
In a city without seasons, it keeps raining in LA  
I feel like I'm about to fall, the room begins to sway  
And I can hear the sirens but I cannot walk away

Grab me by my ankles, I've been flying for too long  
I couldn't hide from the thunder in a sky full of song  
And I want you so badly but you could be anyone  
I couldn't hide from the thunder in a sky full of song

Hold me down, I'm so tired now  
Aim your arrow at the sky  
Take me down, I'm too tired now  
Leave me where I lie

I thought I was flying but maybe I'm dying tonight  
I thought I was flying but maybe I'm dying tonight  
And I thought I was flying but maybe I'm dying tonight  
And I thought I was flying but maybe I'm dying tonight

Hold me down, I'm so tired now  
Aim your arrow at the sky (shoot, shoot, shoot)  
Take me down, I'm too tired now  
Leave me where I lie (Fire)

Hold me down, I'm too tired now  
Aim your arrow at the sky (shoot, shoot, shoot)  
And take me down, I'm too tired now  
Leave me where I lie (Fire)
