

# Left Too Late

Florrie

And the boys boys with their toys toys  
Say goodbye, not for the last time  
The Boys boys with their toys toys  
Say goodbye, you're walking the line

Buy a one way ticket far away from here  
Don't think I'll let you  
I'll never forget  
Buy a one way ticket get me out of here  
I popped your bubble cos baby now I've

Left too late  
All the things that I wanted to say  
Too you, fade away  
And you get what you give  
But you're taking too much and I  
I'm not asking for much  
But enough has happened before  
Wonder why at night when I lie awake your there on the floor

And the boys boys with their toys toys know the score  
I'm not gonna wait for  
The boys boys with their toys toys wanting more  
They're losing the war

Buy a one way ticket far away from here  
Don't think I'll let you  
I'll never forget  
Buy a one way ticket get me out of here  
I popped your bubble cos baby now I've

Left too late  
All the things that I wanted to say  
Too you, fade away  
And you get what you give  
But you're taking too much and I  
I'm not asking for much  
But enough has happened before  
Wonder why, at night when I lie awake your there on the floor

My heart, I've left it open  
Just one too many times  
My heart, can never be broken  
You made a promise that you'll always be mine

My heart, I've left it open  
Just one too many times  
My heart, can never be broken  
You made a promise that you'll always be mine

Left too late  
All the things that I wanted to say  
Too you, fade away  
And you get what you give  
But you're taking too much and I  
I'm not asking for much  
But enough has happened before

Wonder why, at night when I lie awake your there on the floor
