

Like Water

Flume

Melt into me
We go like water
We go like water

Bleed, we all bleed
We go like water
We go like water

Gift everything
We go like water
We go like water

All night
Close my eyes
Can't sleep
Cry tonight
Give me life
Rain down on me
All I need, all I need
You're all I need, all I need
You're all I need, you're all I need

All I need, all I need
All I need, all I need
You're all I need, all I need
You're all I need, you're all I need
