

# Smoke & Retribution

Flume

You ain't got no money, I ain't got no time  
All these faces lookin' funny when I'm drivin' by  
Had to tint my whip, my name is buzzin'  
Know they plan on killin' mine  
Aimin' at your temple, we was taught to kill a nigga mind  
Genocide buried in the tide, cleanse it in the sand  
Blood is sittin' in my hands, I'll never be the bigger man  
I know they'll never understand, but I don't give a fuck  
Lift your hands up high before I stick you up

I held you to the ground cause you were floating  
Told me you're afraid of disappointing  
Pushing on your physical existence  
Pushing only cause you felt resistance  
Can't help but think about the situation  
Tryna get to see but my mind's racing  
Only got each other we can turn to  
Lying here, I know they'll never break you free

You and me nobody else  
If it can't be that way then I'll just be all by myself  
I love the way you stay away from me, you make me melt  
Those nights you used to come and stay with me  
Replaying in my memory, it's no such thing as meant to be  
That's fine cause you so fine, the way you walk, you talk  
The way you leave your mark, just can't break you from my thoughts  
Walkin' through Ramona Park like they wasn't tryna shoot me up  
Doing all we did, we still ain't do enough

Leaving through the night and starting fires  
Going through society's desires  
Smoke and retribution, keep it burning  
Only cause of sorrow I'll be learning  
Can't help but think about the situation  
Tryna get to see but my mind's racing  
Only got each other we can turn to  
Lying here, I know they'll never break you free

Nah, I ain't scared of six feet  
Cause I ain't scared to be free  
All I seen while on this earth  
Know that hearse can't be too worse  
Tell the woman that I hurt  
That I apologize for all my lies  
And tell my mama blame my karma  
Hate she had to see me die  
I just wanna see the sky  
Shinin' from the other side  
Lookin' down on all my friends  
Makin' sure they're walkin' right  
Cause ain't nobody watch our back  
And this life way too hard for that  
I made it out with my heart intact  
Might harm me, still can't harvest that
