Cigarette Burns

One day you're gonna ride ahead of yours That day you're gonna rise above of the occasion Hurt - you know it comes like this, it goes like this Hurt - you know it goes like this, it comes like this

I guess the pills don't work and the drinks don't work In the morning it hurts like cigarette burns The summer's daft and winter's long

One day you're gonna ride ahead of yours That day you're ride ahead of your vocation Hurt - you know it comes like this, it goes like this Hurt - you know it goes like this, it comes like this

I guess the pills don't work and the drinks don't work In the morning it hurts like cigarette burns The summer's daft and winter's long

I guess the pills don't work and the drinks don't work In the morning it hurts like cigarette burns The summer's daft and winter's long

I guess the pills don't work and the drinks don't work In the morning it hurts like cigarette burns The summer's daft and winter's long

I guess the pills don't work and the drinks don't work In the morning it hurts like cigarette burns
