

# Miss World

Flunk

This time  
I know it's gonna be for real  
This time  
I know it's gonna be for real

Full stand still  
I miss the chemistry of your kiss

This time  
I know it's gonna be for real  
Full stand still

This time  
I know it's gonna be for real  
Full stand still  
I miss the chemistry of your kiss

This time  
I know it's gonna be for real

Full stand still  
Alone  
And it's for real

Oh full stand still  
Alone  
And it's for real

I feel so totally happy, and it's all so real  
I could surf the earth on a banana peel  
I am so totally into this  
The chemistry of your kiss

The way you lose yourself at night  
The way you look in the morning light  
You are so pretty  
Makes me wanna burn this city down

I walk the streets with a frown  
The size of a playground merry-go-round  
This time (this time)  
I know it's gonna be for real

You are Miss World  
I miss  
The chemistry of your kiss

Full stand still  
Alone  
And it's for real

Ah full stand still  
This time  
I know it's gonna be for real

Full stand still  
Alone

And it's for real

I feel so totally happy, and it's all so real  
I could surf the earth on a banana peel  
I am so totally into this  
The chemistry of your kiss

The way you lose yourself at night  
The way you look in the morning light  
You are so pretty  
Makes me wanna burn this city down

I walk the streets with a frown  
The size of a playground merry-go-round  
This time (this time)  
I know it's gonna be for real

You are Miss World  
I miss  
The chemistry of your kiss  
Alone...  
The chemistry of your kiss

You are Miss World  
I miss  
The chemistry of your kiss
