

Sunday People

Flunk

Here we are in a special place What are you gonna do here Now we stand in a special place What will you do here What show of soul are we gonna get from you It could be deliverance, history Under these skies so blue And if I know you you'll bang the drum Like monkeys do

Here we are in a fabulous place What are you gonna dream here We are standing in this fabulous place What will you play here I know you love the high life, you love to leap around You love to beat your chest and make your sound But not here man, this is sacred ground With a Power flowing through And if know you you'll bang the drum Like monkeys do

Not to pass on by Not to walk on by Not to try Just to let it come Don't bang the drum Just let it come Don't bang the drum
