

## Starlight

Flux Pavilion

We could be starlights  
When the world won't turn for no one  
Circle the spotlights  
When you ain't got nothing to prove

We could be starlights  
We could be starlights  
We could be starlights

We could be starlights  
When the world won't turn for no one  
Circle the spotlights  
When you ain't got nothing to prove

It's build just on pills  
From the halfway night  
Circle the nightlife  
When you ain't got nothing to prove

We could be starlights  
When the world won't turn for no one  
Circle the spotlights  
When you ain't got nothing to prove

And we'll never make a sound  
My feet too firmly on the ground  
They're rising on a summer cloud  
The water seems to turn so slow

We could be starlights  
When the world won't turn for no one  
Circle the spotlights  
When you ain't got nothing to prove  
We could be starlights  
We could be starlights  
We could be starlights.
