

# Fool In My Heart

Flying Colors

There's a fool in my heart  
Who denies what he sees  
Who thinks that one day he will stand, though he's cut to his knees  
Though he lost and alone  
He always believes  
That one day his love will return and he'll find what he needs

Will you be alone  
In the place you call home?  
Locked away  
I will stay with my memories  
Will you be alright  
In the dark of the night?  
I'll be cool  
'Cause this fool keeps me company

There's a fool in my heart  
That will never let go  
But there is still something that I really want you to know  
I always will love you  
Forever, I will  
And though it's been years since you left me  
This fool loves you still

Will you be alone  
In the place you call home?  
Locked away  
I will stay with my memories  
Will you be alright  
In the dark of the night?  
I'll be cool  
'Cause this fool keeps me company

So many times, I just wake up and shine  
Can you feel it coming?  
Comin' over and over and over, again

Will you be alone  
In the place you call home?  
Locked away  
I will stay with my memories  
Will you be alright  
In the dark of the night?  
I'll be cool  
'Cause this fool keeps me company

There's a fool in my heart that will never let go
