

# Breathe Today

Flyleaf

You can only move as fast as who's in front of you  
And if you assume just like them, what good will it do?  
So find out for yourself, so your ignorance will stop bleeding through

Only one thing

big enough to fill the void that's inside of you  
It's just a breath away

E        G                                  F        x2  
on second time

So many, Lies swarming, Around You, You're suffocating,  
The empty, Shape in you,  
Steals your breath you're suffocating

Logic forces me to believe in this and now I've learned to see  
I can only say what I've seen and heard and only you can choose  
And every choice you make will affect you, search your own self

You can breathe today

So many, Lies swarming, Around You, You're suffocating,  
The empty, Shape in you,  
Steals your breath you're suffocating

Big enough to fill the void that's inside of you  
It's just a breath away  
So many, Lies swarming, Around You, You're suffocating,  
The empty, Shape in you,  
Steals your breath you're suffocating

You can breathe today  
Breathe today
