Perfect

Sick of circling the same road Sick of bearing the guilt So open the windows to cool off And heat pours in instead Perfect in weakness I'm only perfect in just your strength alone

All my efforts to clean me Leave me putrid and filthy And how can you look at me When I can't stand myself

I'm tired to be honest
I'm nobody

Perfect in weakness I'm only perfect in just your strength alone

Perfect in weakness I'm only running in just your strength alone

I tried to kill you You tried to save me

You save me You save me You save me

Perfect in weakness I'm only perfect in just your strength alone

Perfect in weakness I'm only running in just your strength alone
