

# Something Better

Flyleaf

Aren't we all trying to become something better?  
Oh, whoa, don't you know  
Every time you take my hand, I become someone better  
Oh, whoa, don't I know

Come spend the night inside our soul  
It's so beautiful, at all  
The howling wolves between my ears  
Go silent when they hear you call

My darkness fades away  
If you speak, I hear you call  
Not just the words you say  
And now I'm feeling oh so happy

Aren't we all trying to become something better?  
Oh, whoa, don't you know  
Everytime you take my hand, I become someone better  
Oh, whoa, don't I know

Come spend the day, watch the sunshine play  
Off the light that's in your eyes  
A lonely bird chirps a cheerful word  
As he floats across the sky

My darkness fades away  
If you speak, I hear you call  
Not just the words you say  
And now I'm feeling oh so happy

Aren't we all trying to become something better?  
Oh, whoa, don't you know  
Every time you take my hand, I become someone better  
Oh, whoa, don't I know

She said, "Don't forget the person you are"  
Seem to remember chasing falling stars  
Up until you found me lying on the ground and whispered

Aren't we all trying to become something better?  
Oh, whoa, don't you know  
Every time you take my hand, I become someone better  
Oh, whoa, don't I know

Aren't we all trying to become something better?  
Oh, whoa, don't you know  
Every time you take my hand, I become someone better  
Oh, whoa, don't I know
