

Wake Up

Flymore

Day by day
We all get lost just suffocate and
Why we can't just make it all
Less complicated

No time to cry and not even to think
Look around you're on the brink
Life can be taken in a blink of an eye
Life is too long till you die

Night by night
We play our games despite the morals
Life goes back so fast and strong
Forgetting our names

No time to cry and not even to think
Look around you're on the brink
Life can be taken in a blink of an eye
Life is too long till you die

Here I am
Safe at last
Free from the pain
Of my past
My soul reaches out
In heaven's grasp
The end is here
Home at last
And there's NO MORE SHIT

Fuck all that bullshit
Fuck! Fuck! (x4)

No time to cry and not even to think
Look around you're on the brink
Life can be taken in a blink of an eye
Life is too long till you die

Wake up (4x)
