

## We Fall

FM Belfast

Can't define you by the sound you make  
I can't help you, I can't help you

We fall we fall  
we fall we fall  
And you end up in my face  
and you end up in my face

We fall we fall  
we fall we fall  
And you end up in my face  
and you end up in my face

Cover your eyes. You cover your eyes  
you cover your eyes  
you cover your eyes  
you cover your eyes

Cover your eyes. You cover your eyes  
You cover your eyes  
You cover your eyes  
You cover your eyes

Can't define you by the sound you make  
I can't help you, I can't help you

We fall we fall  
we fall we fall  
And you end up in my face  
and you end up in my face
