

# Alabaster

Foals

She's up in the sky  
She's up in the domes  
She's up in the sky, up in the dome

I knew a girl who came from VillaLuz  
Had a house filled with  
Religious regret and infinite debt,  
Heaven's pressure

She's a light in the dark  
She's out of the door  
She's up in the sky, up in the domes

Alabaster lover  
(You go and get gone)  
We make each other  
(You go and get gone)

Alabaster lover  
(You go and get gone)  
We make each other  
(You go and get gone)

She's up in the sky and the sky is on fire  
She set the whole neighborhood to life  
Then the people they'll read out all their names  
Run away, run away, run away

And with victory the whole world would be ours  
We will build nothing in it  
Nothing in it

Alabaster lover  
(You go and get gone)  
We could make each other  
(You go and get gone)

Alabaster lover  
(You go and get gone)  
We made each other  
(You go and get gone)

Alabaster lover  
We made each other
