

## Moonlight

Foals

I walked into the desert  
I walked out of the past  
You were ridin' in a black hole  
To sing the songs at the table again

I walked into the desert  
I walked into the dawn  
You came to me in the black hole  
To right all I've said and done

Belong with our own  
Belong with our own  
Belong with our own  
Belong with our own

Oh  
Oh
