Stepson

Step out, aching stepson And you'll fall into the blue And you'll fall into the blue Oh, I'm coming down for you

Step out, aching stepson And I'll lead you by the hand And we'll fall into the blue Oh, I'm coming down for you Oh, I'm coming down for you

But I'm falling, deeper down I go And I'm falling, down the grounds beneath the road Now I'm falling, deeper down I go And I'm falling, deeper now I known And I'm falling, deeper down the shore And I'm falling, as the rocks way down below As the rocks way down below As the rocks way down below

Step out, aching stepson And you'll fall into the blue And you'll fall into the blue Oh, I'm coming down for you

Step out, aching stepson And I'll lead you by the hand And we'll fall into the blue Oh, I'm coming down for you Oh, I'm coming down for you Coming down for you Coming down for you Coming down for you...
