

I've never been unhappy or alone
Each day daylight came back
I always watched the stars
Not thinking space big and dark
Rains always were my friend
The wind knew all my secrets
Brother do you know that the times are hard
Do you wanna see my eyes
Make a start
Cause brother do you see that the times are hard
I need love
I do not fear the shadows of trees
But city shadows don't move
I saw a child of God. He was
Someday to grow into the world
Brother do you know that the times are hard
Do you wanna see my eyes
Make a start
Cause brother do you see that the times are hard
I need love
