```
Treat me like a doormat wipe me out
Take my will and grind it into dust
Youre free to do what you are told
Until the rights to you are sold
You take away - i give you all
You take away - i give you all
You take away - i give you all i got
Mandelay
Relinguish what it takes to heal
Relinquish touch and taste and feel
Relinquish all i ever known
Relinquish all and turn to stone
Relinquish what's inside my head
Relinquish all ive ever read
Relinquish all that i enjoy
Forget that i am just a boy
Deny myself the simplest pleasure
Increase the suffocating pressure
Objects in the mirror are closer than they appear
You take away i give you all
You take away i give you all
You take away i give you all i got
Mandelay
You take away i give you all
```
