

## Pneumonia

Fog

Is it depression or disease?  
Tell it to the millipedes

The casserole was good  
And the drives were so nice  
Welcome to the worst part of your life

I'm hard to fix because  
It took me so goddamn long  
To figure out that I broke down

Mold spores fill my lungs  
Silverfish hide in the venetian blinds  
In the wintertime

In the bathroom  
With the shower running and my clothes on  
I figured out that I hate you all

I'm hard to fix because  
It took me so goddamn long  
To figure out that I broke down
