

## Valhalla Ascendant

Folkearth

Above the realm of death  
beyond the crimson clouds  
out of the winter's reach  
Valhalla lies - the golden hall

It's there I shall ride  
with my battlebrothers  
by my side - in honour  
forever there to reside

Above the plains of pain  
beyond the dark of night  
At the end of the rainbow  
Valhalla lies - the golden hall

It's there I shall ride  
with my battlebrothers  
by my side - the glories  
Of Odin shall be mine!

Above the realm of men  
Beyond the rays of the sun  
At life's bloody breaking  
Valhalla lies - the golden hall

t's there I shall ride  
with those who died  
By my side - like kings  
For eternity we shall dine
