Foo Fighters

1. When she goes stormin' out  
I run for cover  
Rollin' like thunder clouds  
Hangin' above her  
Ring in the witching hour  
Spells that I'm singin'  
Rain come and drown me out  
Sinkin' deep alone

R1: Can you go another round?  
I will follow you down and out  
Let's go another round  
I will follow you down and...

2. We could just lay around  
Stare at the ceiling  
Want to forget about  
One for the feelin'  
Room for photographs  
Box full of letters  
Come on make it last  
Nothin' else matters right now

R2: Can you go another round?  
I will follow you down and out  
Let's go another round  
I will follow you down and out

R2: Can you go...

\*: Let's go another round  
I will follow you down and out  
Let's go another round  
I will follow you down and out
