

Burn Away

Foo Fighters

1. I have spent a lifetime
Waiting for the chance
To save you my confession
Save the one last dance

2. The same old superstition
Haunt us now and then
I'm begging for ignition
To start it all again

R1: We'll burn away
Burn away, burn away my bride
We'll burn away
Burn away, burn away my bride
We'll burn away from all the other flames that burn tonight
We'll burn away
Burn away, burn away my bride

R2: Breathe for me from now on
Breathe for me when I'm gone
Burn out beyond
Out beyond the sun

3. Will you still remember
There behind the skies
Walking on the embers
Standing in their light

4. The hardest part is knowing
Everything must die
The hardest part is waiting here
Waiting to collide

R1: We'll burn away...

R2: Breathe for me...

Burn on, burn on
Calling to you
Burn on, burn on
Calling to you
Burn on, burn on...

*: We'll never burn again
Never burn again
Never burn again
Never burn again
We'll never burn again
Never burn again
