

# End Over End

Foo Fighters

1. Burn all the candles out  
Make a wish but not aloud  
Relive the here and now  
See you now and then  
I'm a revolvin' door  
I've seen it all before  
I will begin again  
But I can't start until I've seen the end
  
2. I took a look around  
I believe that in these eyes  
The treasure's all we've found  
When we were brand new  
Now that we're old and worn  
A little ripped and torn  
One day we'll be reborn  
One day I will meet you right back here
  
- \*: Hey  
Once again  
Wait  
Stop me so I can begin
  
- R: End over end  
End over end  
End over end  
I'm circling  
End over end  
End over end  
End over end  
I'm circling
  
3. I'm feelin' out of luck  
Maybe I just feel too much  
That old familiar touch  
Always stained my skin  
The good in everyone  
The ties we left undone  
The heart that moves your blood  
All the things that bring me right back here
  
- \*: Hey...
  
- R: End over end... (2x)
  
- I'm circling
  
- \*: Hey...
  
- R: End over end.. (2x)
  
- I'm circling  
I'm circling, I'm circling  
I'm circling
