

# Keep the Car Running

Foo Fighters

Every night my dream's the same  
Same old city, different name  
Men are coming to take me away  
Don't know why but i know i can't stay

There's a weight that's pressing down  
Late at night i can hear the sound  
Even the noise you make when you sleep  
Can't see across the river so deep

They know my name, 'cause i told it to them  
But they don't know where and they don't know when  
It's coming, when it's coming

There's a fear i get so deep  
You knew the sentence before i could speak

They know my name, 'cause i told it to them  
But they don't know where and they don't know when  
It's coming, or where  
But it's coming

Keep the car running

If some night i don't come home  
Please don't think i've left you alone  
The same place animals go when they die  
Can't get across the mountain so high

The same city i go when i sleep  
Can't see across the river so deep

They know my name, 'cause i told it to them  
But they don't know where and they don't know when  
It's coming, or when  
Is it coming?
