

# Make It Right

Foo Fighters

Everybody needs, everybody needs  
Needs a little suffer  
I just wanna do, I just wanna do  
Do a little number  
Bite the hand that feeds, bite the hand that feeds  
Bite a little harder  
What's it gonna take, what's it gonna take  
Take a lover

Hop on the train to nowhere baby  
Don't you wanna hitch a ride?  
Lights go out and your head starts spinning  
Someone got you hypnotized  
Down on the chain, your bad tuxedo  
Brother can you spare a dime?  
Count what's left when it's all gone wrong  
How you gonna make it right?  
How you gonna make it right?

Everybody breathe, everybody breathe  
Breathe a little deeper  
Got no soul to keep, got no soul to keep  
Ain't no brother's keeper  
I don't fuckin' need, I don't fuckin' need  
I don't need a matyr  
Who's it gonna be? Who's it gonna be?  
Gonna be another

Hop on the train to nowhere baby  
Don't you wanna hitch a ride?  
Lights go out and your head starts spinning  
Someone got you hypnotized  
Down on the chain, your bad tuxedo  
Brother can you spare a dime?  
Count what's left when it's all gone wrong  
How you gonna make it right?  
How you gonna make it right?  
Gonna make it right  
How you gonna make it right?  
Gonna make it right

Hop on the train to nowhere baby  
Don't you wanna hitch a ride?  
Lights go out and your head starts spinning  
Someone got you hypnotized  
Down on the chain, your bad tuxedo  
Brother can you spare a dime?  
Count what's left when it's all gone wrong  
How you gonna make it right?  
How you gonna make it right?  
How you gonna make it right?  
Gonna make it right  
Gonna make it right
