

# Overdrive

Foo Fighters

1. Coming down I'm coming round  
this time I think I'm waking up  
give me loud to drown it out  
before the world starts breaking up  
You change and then you change again  
turning like a wheel inside your head

2. Yours and mine and left and right  
there's still two sides to everyone  
you and I get on with life  
and pray we'll find a better one  
You change and then you change again  
turning like a wheel inside your head

R1: Overdrive - we're going life or death  
overdrive - we're going life or death  
overdrive - we're going life or death  
two strangers on the mend  
overdrive - we're going life or death  
overdrive - we're going life or death

3. Hurry now we're getting out  
this time there's nothing stopping us  
leave behind this vacant town  
tonight and let it turn to rust  
You change and then you change again  
turning like a wheel inside your head

R2: Overdrive - we're going life or death  
overdrive - we're going life or death  
overdrive - we're going life or death  
two strangers no relation on the mend  
You change and then you change again  
turning like a wheel inside your head

4. Coming down I'm coming round  
this time I think I'm waking up  
give me loud to drown it out  
before the world starts breaking up  
You change and then you change again  
turning like a wheel inside your head

R3: Overdrive - we're going life or death  
overdrive - we're going life or death  
overdrive - we're going life or death  
two strangers on the mend

R4: Overdrive - we're going life or death - overdrive - we're going  
life or death  
overdrive - we're going life or death - overdrive - we're going  
life or death  
overdrive - we're going life or death  
two strangers no relation  
two strangers no relation on the mend
